

January 22, 2012

To Whom It May Concern,

I had the pleasure of meeting Kianoush Moradian during the Spring Quarter of 2011. As an instructor at Seattle Central Community College and the International Academy of Design and Technology, I have the opportunity of interacting with many students, and helping them to achieve their goals.

Kianoush is a highly intelligent, dedicated and hardworking student. Kianoush thinks “out of the box” and exhibits great creativity. He creates exceptional imagery for all facets of communication and continually shows me outstanding work (in web design/development) and growth that surpasses expectations. Most importantly, Kianoush has an appetite for learning and problem solving. So many students in today’s academic world only seek the “answer” to the problem, without understanding the process. Kianoush is truly the exception.

I highly recommend Kianoush for a position in web design/web development. I strongly believe that with his talents, curiosity and motivation, he is on the road to success.

Sincerely,

Olga Szemetylo
